WHAT IS GATEDP?

The Georgia Telecommunications Equipment Distribution Program (GATEDP) is a program enacted by the Georgia Legislature that provides specialized equipment to Georgia residents who cannot use a standard telephone because of communication barriers associated with hearing and/or speech.

The equipment remains the property of the State of Georgia and is loaned to recipients. This program offers equipment, training, and warranty repair services to eligible applicants free of charge. One must apply for the program by completing an application form and providing the required documents to determine eligibility. Funding for the program is provided through a surcharge on phone and internet subscriber bills. The Georgia Public Service Commission (PSC) contracts with the Georgia Center of the Deaf and Hard of Hearing (GCDHH) to be the distribution agency for GATEDP. GCDHH, established in 1989, is a statewide nonprofit service center that provides an array of services throughout Georgia to the Deaf and Hard of Hearing community.
